The Evolution to a New Code

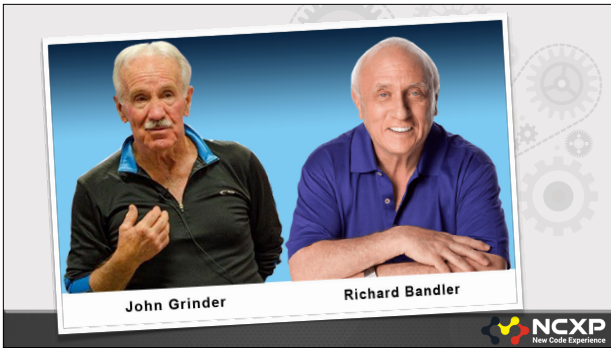

3

The Evolution to a New Code and What It Means to You

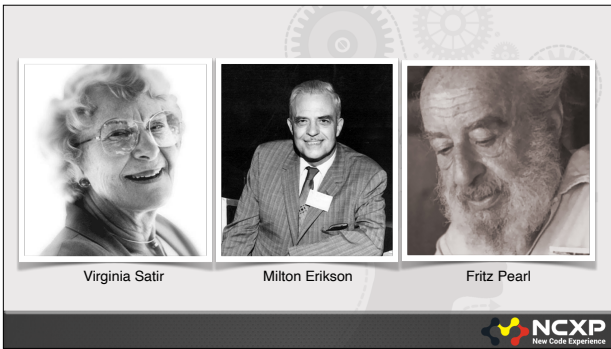

- ☑ How the most advanced transformation technology on the planet was born from the desire to raise more ethical, congruent and excellent leaders
- ☑ The **New Code** evolved from what the world currently knows as NLP (neuro-linguistic programming) ➡ Classic Code NLP

The Evolution to a New Code

8

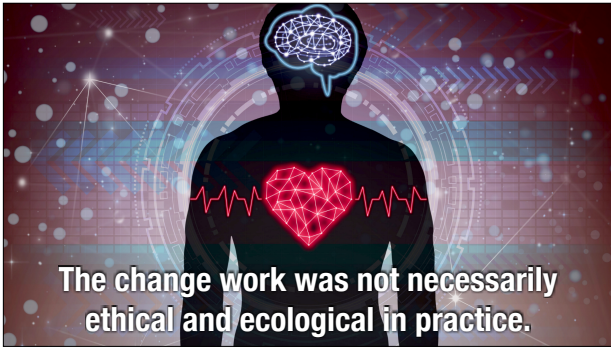

9

10

Lack of congruence.

11

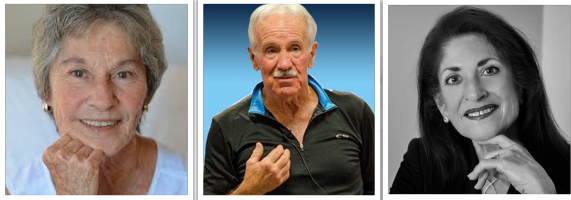

The change work was not necessarily ethical and ecological in practice.

The Evolution to a New Code 

14

The Evolution to a New Code

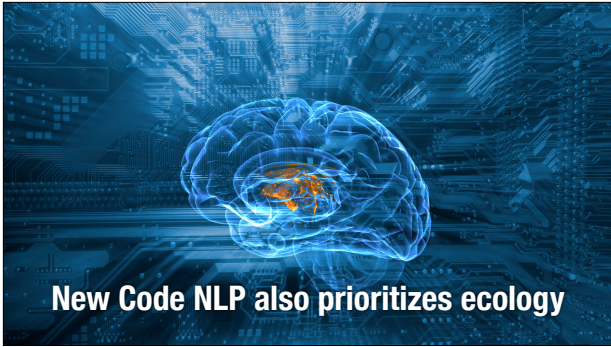

- ✓ **New Code NLP** fixes the flaws of Classic Code NLP
- ✓ It's the **ONLY** technology we are aware of that strives to generate **internal congruence** by encouraging communication between the conscious and unconscious mind
- ✓ **New Code NLP** solves the greatest challenge we have as a culture in the Coaching and Transformation industry
- ✓ **New Code NLP** is also the only technology whose base is ecology

The Evolution to a New Code 

15

New Code NLP engages with the unconscious mind.

16

And this is all relevant to you because...

- ☒ The changing times we are living demand for a next level of leadership
- ☒ There's a lack of respect to the proposed leaders, because of their incongruence
- ☒ There's a lack of consideration for how one action or behavior affects the wellbeing of self or others
- ☒ There's a lack of respect for others' personal experience about their world

The Evolution to a New Code 

17

The Evolution to a New Code

New Code NLP proposes a new type of leader that has internal and professional congruence, who acts in consideration of others and in respect of other people's experience

The Evolution to a New Code 

18

QUICK RECAP

- ✓ How design flaws in **Classic Code NLP** and the lack of congruence and ecology in the practitioners led to the development of what we now call **New Code NLP**
- ✓ **New Code NLP** is the **ONLY** technology we are aware of that strives to generate internal and professional congruence
- ✓ **New Code NLP** is also the only technology whose base is ecology, which means it is concerned for the overall well being of the client and his/her surroundings
